NuclearN is Artificial Intelligence for the Nuclear Industry

# Spend less time searching, More time thinking & doing.

Center your efforts on what truly matters—high-value activities. With NuclearN AtomAssist, routine tasks become automated, costs are optimized, and your projects are driven to success with unmatched precision and efficiency.

## Custom Nuclear Chatbot

## Key Features

### 2x Productivity

Streamlining routine tasks not only lowers internal costs but also boosts efficiency, allowing for more focused oversight on critical safety protocols.

### Accelerate Innovation

Automate mundane tasks and improve documentation and compliance, enabling talent to innovate.

### Gen AI + Citations

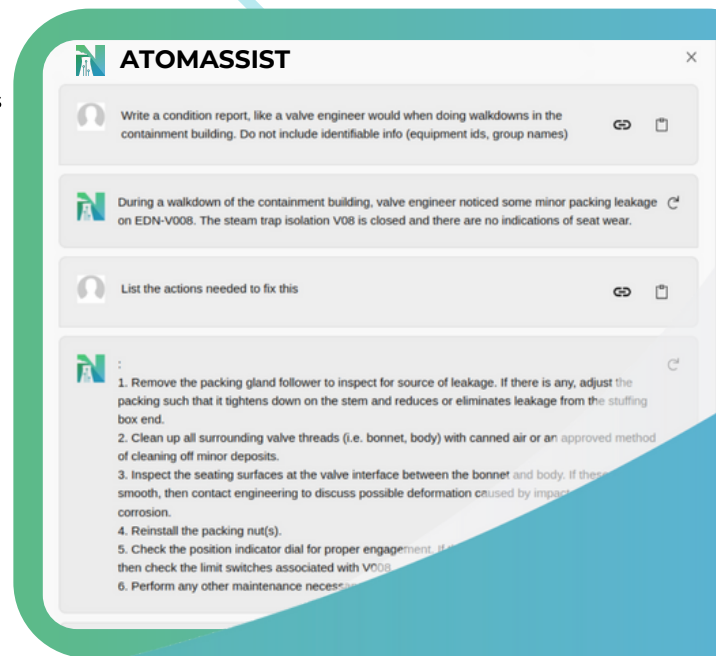

AtomAssist uses the latest in Generative AI techniques to be able to deliver nuclear related information with high accuracy and source references to facilitate compliance checks.

### Next-Gen Document Handling

AI-driven platform enables fast uploading, searching, and referencing, optimizing research and collaboration.

## About NuclearN:

Founded in 2021, NuclearN is an AI company made up of industry veterans with decades of combined experience. We are nukes focused on helping other nukes.
