Pinpoint missed Capital Expenses from OpEx with unmatched precision.

Transform Your CapEx Classification. NuclearN Capitalizer automates the classification process using AI, reducing manual work and significantly lowering the risk of errors.

Key Features

Accounting + AI
Capitalizer reads and understand the nuance of your accounting procedures and work, identifying capitalization opportunities many humans miss.

Customizable
Define and customize rules and parameters specific to your site. NuclearN Capitalizer adapts to different contexts and accurately reflects your criteria.
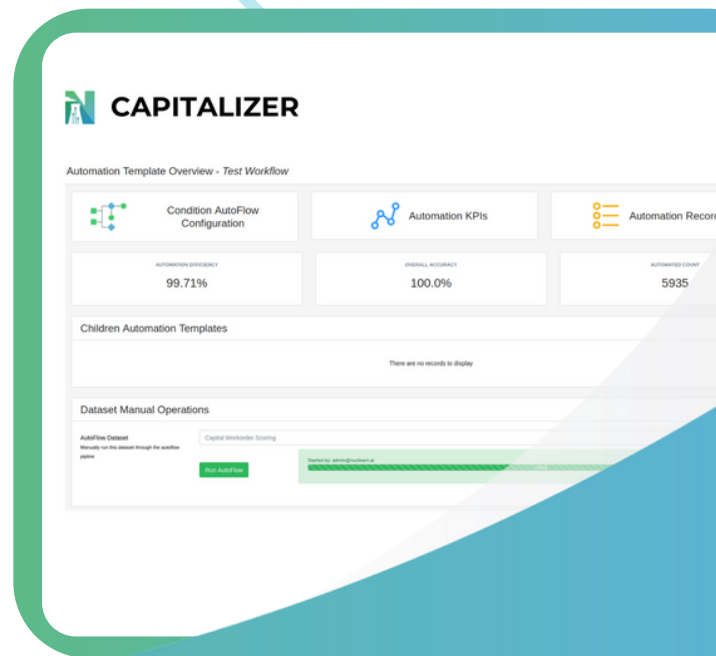

Automate with Ease
Automatically classify expenses as CapEx or OpEx with human-level accuracy.

Regulator-ready
Complete audit trail captures the history of expense classifications, revisions, and user actions for accountability and review purposes.

About NuclearN:
