NuclearN is Artificial Intelligence for the Nuclear Industry

Get Outages Back On Track.

The AI outage analysis tool. Elevate your project management. Navigate through multiple off-track projects, and harness the power of AI without the overwhelm.

Project Genius

Key Features

Data-Driven Predictions & Decisions

Leverage AI to forecast the most probable completion date and get unprecedented prediction accuracy using historical data, machine learning, and Monte Carlo simulations.

Uncover Hidden Insights and Risks

Advanced analytics dives deep into project data, revealing hidden risks and insights.

Actionable Visualizations

Get an overview of your historical outage data plus drill down to view individual activities.

Simplify Resource Planning

Allows you to free up or delay resources based on predicted activity length or start and finish times.

About NuclearN:

Founded in 2021, NuclearN is an AI company made up of industry veterans with decades of combined experience. We are nukes focused on helping other nukes.
