NuclearN is Artificial Intelligence for the Utility Industry

Gen AI: Streamline Documentation, Free Up Engineers

Achieve Engineering Mastery. Center your efforts on what truly matters—high-value engineering. With NuclearN Atom Assist, routine tasks become automated, costs are optimized, and your projects are driven to success with unmatched precision and efficiency.

Custom Engineering Chatbot

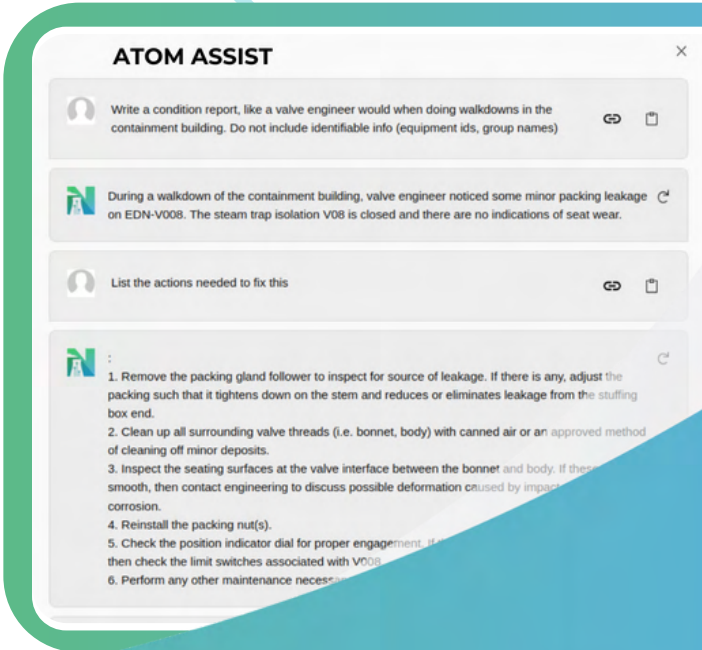

Key Features

Amplify Engineering Innovation
Automate mundane tasks and improve documentation and compliance, enabling engineering talent to innovate.

Boost Profitability
Streamlining routine tasks not only lowers internal costs but also mitigates buyer risk by delivering projects within budget and on schedule.

Generative AI
AtomAssist uses the latest in Generative AI techniques to be able to deliver engineering related information.

Next-Gen Document Handling
AI-driven platform enables fast uploading, searching, and referencing, optimizing research and collaboration.

About NuclearN:

Founded in 2021, NuclearN is an AI company made up of industry veterans with 35+ years of combined experience. We are relentlessly focused on automating everyday activities to drive down cost and increase quality for utilities.
