NuclearN is Artificial Intelligence for the Nuclear Industry

Be Proactive on Evaluations

NuclearN Evaluator detects potential issues and trends early, offering you a clear roadmap to prepare for INPO, WANO, regulatory, and other program evaluations. After the evaluation, our system facilitates an ongoing cycle of improvement, automating the tracking and closure of identified vulnerabilities for sustained operational success.

Key Features

Code CRs Out of the Box

Pre-trained AI models code your condition reports out of the box. Simply let the NuclearN platform analyze your CR text and do the rest.

Scoring in Hours Not Weeks

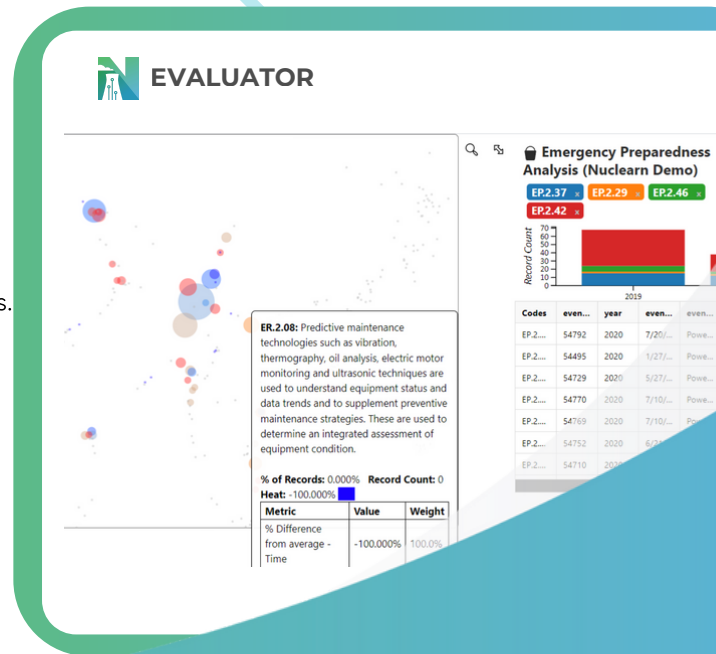

Evaluator can easily code 10s of thousands of condition reports in hours.

Real-time Insights and Monitoring

Identify potential INPO or WANO AFIs and trends with precision and ease.

Condition Report Trending Dashboard

Allows you to start trending and analyzing your CAP data using trend codes in one place.

About NuclearN:

Founded in 2021, NuclearN is an AI company made up of industry veterans with decades of combined experience. We are nukes focused on helping other nukes.
